BCBSM Connectathon Judging Criteria
January 30, 2020

Alignment with Use Case	Use of API's	Solves Real Problems in Healthcare	Innovation & Creativity	User Experience	Technical Difficulty	Presentation Demo
20%	**20%**	**20%**	**15%**	**10%**	**10%**	**5%**
How aligned was the solution with the event use case?	Did the team effectively use APIs available to create a solution?	Does the team clearly show how real-world problems are solved in Healthcare?	Did the team create something that has not already been created? Is it unique?	What is the *wow* factor? Would others be impressed by what was built? How easy is the solution to use?	Is the project technically impressive / complex? Is it remarkable that a team created this solution in the length of the event?	Was the presentation / demo well put together? Did the team seem prepared? How well did they explain the problem and solution?
